

Programme Summary and Event Keyword search

The **PROGRAMME SUMMARY** and the **EVENT KEYWORD** searches work slightly different to the other searches, this is because it is searching a lot more data.

Search terms to use

- Programme Summary & Event Keyword use: *
- All other filters use: %

The screenshot shows the 'Programme Details' search interface. At the top, there are tabs: 'Programme Details' (highlighted with a red border and a '2' badge), 'People & Teams', 'Dates', and 'Migrated'. Below these are several filter buttons: 'UID' (key icon), 'Series Name' (file folder icon), 'Episode Name' (play button icon), 'Form Status' (NEW badge), 'Programme Summary' (document icon with a '1' badge, highlighted with a red border), 'Event keyword' (document icon with a '1' badge), and 'Supplier' (phone icon). A search bar at the bottom contains the text 'Search Programme Sur' with a magnifying glass icon, and a red box highlights the search term 'llama*'. Below the search bar are two filter boxes: 'Programme Summary: llama*' and 'Event keyword: donkey*'. The main content area is titled 'Programmes' and shows a table with one result. The table has columns: 'UID' (redacted), 'Series Name' (redacted), 'Episode Name' (Episode 15 of 20), and 'Programme Status' (Last edited: [redacted] Submitted). A green bar at the bottom of the table indicates the result is 'Submitted'.

UID	Series Name	Episode Name	Programme Status
[redacted]	[redacted]	Episode 15 of 20	Last edited: [redacted] Submitted
